# International PingPongParkinson VR-Championship

5.Feb.2023, 6:00 pm (UTC+1)

## How to Play

All rounds are played in a **Best of 3 matches** format – where a Match is a best of 3 Sets/Games to 11 points (must win by 2 points).

The first player to win two matches wins.

All matches will be played as **RANKED** matches

Players agree on a room code in advance and meet there for a **Best Of 3 Eleven ranked match**.

To create a room, go to Settings->Tree->Network debug and in "Room" enter a 5-digit alphanumeric code you have agreed with your opponent beforehand, then click "Go to room".

If either player has connectivity or technical issues that make the match unplayable, please restart from the same score at which the issues came up, if possible.

In case of recurring technical issues, stop the match and immediately contact the Tournament Manager.

Once you have played your match, the winner should report the results directly to the Tournament Manager:

Just report the match results (e.g 2:0 or 2:1)
